

A partnership
that delivers

The Molins and TMQS partnership, formed in October 2006 is proving to be a formidable combination. Combining global market presence and a rich industrial heritage with a strongly innovative approach to quality and performance, the partnership provides solid foundation and excellent opportunity for the future.

The first success of this partnership is the new Octave cigarette maker. A completely new innovation in cigarette making technology, the Octave incorporates the very best attributes and achievements of both Molins and TMQS.

Visit us on stand C106 to hear about the new Octave and how our partnership can deliver real benefits to your business.
